- Once done from Review Documents, the next should be the Analysis Page:

5. Once done, move on to the next page which is Review Conflicts.

6. Once done, move the final step which is the bid generation page:

The screenshot shows the BidForge AI Bid Generator interface. At the top, there are buttons for 'Preview PDF', 'Share', and 'Save'. Below that, the 'AI Model' is set to 'DeepSeek', 'Tone & Style' is 'Highly Technical', and the 'Instructions Preset' is 'Standard Bid Response (Default)'. A note at the bottom left says: 'IMPORTANT: Generate a bid response using ONLY the following data sources. Do NOT invent, assume, or hallucinate any information: DATA SOURCES (Use ONLY these): - Uploaded RFP/RQ documents [project requirements, scope, specifications] - Company profile'. In the center, it says 'Welcome to BidForge AI' and 'Use the Generate panel to create your first bid draft, or start typing to manually build your proposal.' On the left, there's a 'Project Files' section with a file named 'gork_attention...txt' and a 'Bid History' section which says 'No bids generated yet. Generate your first bid using the AI panel.'
